HOCKEY SOLUTIONS

GO TOP SHELF WITH DAKTRONICS

From a basic scoreboard that keeps track of score and time to the more advanced hockey scoring systems, we have you covered. When hockey fans come to your ice arena, they shouldn't have to keep track of anything in their head or on their hands. Whether it's shots on goal or who's sitting in the penalty box, your scoreboard should help fans follow along with every second of the game. Your hockey tournaments are something fans should look forward to, not dread. With a scoreboard as part of the pride of your facility, why not make it count?

LEADING THE INDUSTRY IN CUSTOMER SUPPORT

We stand behind each product with the most comprehensive service network in the industry. Daktronics local presence of authorized service companies and employee technicians provides timely, affordable service and valuable peace of mind.

SCORING ADD-ONS

Daktronics offers the most complete line of scoring and timing systems. Make the most impact at your venue with enhancements.

TI-2031

Digit size: 4" 102mm

H: 8" 203mm **W:** 1'-3" 381mm

Surface mount D: 3.25" 83mm

Flush mount D: 1.375" 35mm

LOCKER ROOM CLOCKS

The TI-2028 locker room clock displays time in-sync with the scoreboard clocks. The TI-2028 is wall mounted and interfaces with the All Sport® or Pro Sport® controllers to run as a locker room clock, and as a time of day clock when the controller is not connected.

GOAL LIGHTS

Goal lights may be mounted to protective glass around the rink or to a 1" (25mm) pipe (not included). Press the goal judge switch to alert fans of each goal.

PRO MODEL

H: 10" 254mm **W:** 2'-6" 762mm **D:** 7" 178mm

- Signal goals with 2 rotating red beacons and indicate end-of-period with green lamp

VARSITY MODEL

H: 10" 254mm **W:** 2'-6" 762mm **D:** 6" 152mm

- Signal goals with red lamp and indicate end-of-period with green lamp

Message center modules feature provide wider viewing angles and closer viewing distances to prominently display exciting animations, colorful graphics, and text messages.

6MM & 10MM MESSAGE DISPLAYS

The LEDs used for indoor message displays combine red, green and blue elements into one small package. Using a single package enables Daktronics to space LEDs extremely close to one another, forming displays with incredibly tight resolutions.

Some popular display sizes are shown.
 See a full list of sizes at daktronics.com/hockey

160x288-10 with H-2106

128x288-10 with H-2106

64x288-10 with H-2105

6MM & 10MM VIDEO DISPLAYS

Contrast-enhancing capabilities along with unrivaled uniformity make our video displays the most efficient displays on the market. Bring your scoring to a new level with live video, animations, replays and more.

432x768-6 with custom modular scoreboards

INDOOR VIDEO DISPLAYS

Create the focal point of your gymnasium with a Daktronics indoor video system. Display zoning and video overlays offer prime real estate to recognize sponsors and showcase in-depth game information.

- › Promote future events
- › Generate revenue through sponsorship
- › Crisp, clear video with several results configurations
- › Fewer personnel required for front-end video equipment

Combine a video display with a team statistics scoreboard and incorporate statistics software to provide an engaging game experience.

SHOW CONTROL COMPUTER

- › Easy touchscreen operation
- › Create, organize and display original content

CHOOSE FROM

- › 1-input video rack for single live video feeds
- › 4-input video rack for multi-camera switching
- › Multiple resolutions, up to 720p
