

Product Description

The Production Display is a five line electronic unit that shows the time/temp in the top corner, the production data on the following three lines, and scrolling messages on the bottom 20 character line. The characters are 30mm high and use ultra-bright red LEDs.

Mount the Display securely and connect the cables as shown in the Figure below.

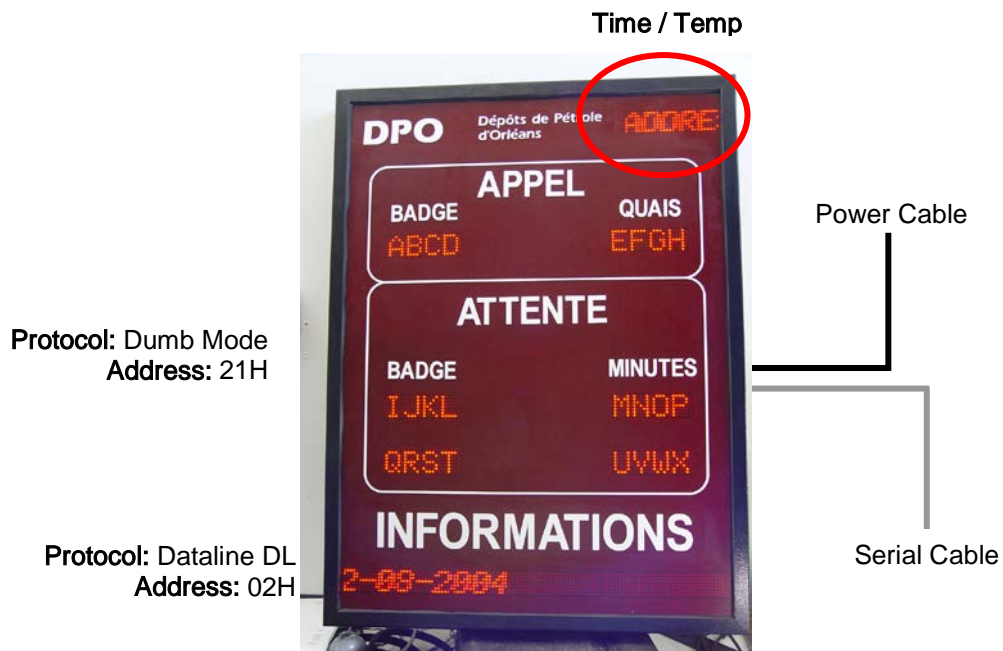

Figure 1 – System Configuration.

Operating Instructions

The Display is operated using a software package provided by for the customer.

Alternating Time / Temp
